

Products for all your Patient Positioning Needs

Orthopedic, Spine, Bariatric, Laparoscopy,
Gynecology, Urology and advanced
surgical positioning accessories
to improve patient outcomes

NEW! Schure Loc™ XPS

Provides optimal intraoperative positioning
for all open and arthroscopic limb procedures

Extra Surgical Hand | No Air or Power Needed | Attaches to Any OR Table Rail

SchureMed—the Better Choice

American Made—For Less

SchureMed is one of the world's leading manufacturers of operating room products specializing in surgical table accessories and positioners. All of our products are proudly made in the United States in our Abington, MA manufacturing plant and shipped worldwide.

Patient Positioning

Patient positioning is our priority and guides the design of all our products. We offer products for Gynecology, Urology, Orthopedic and General Surgery procedures. SchureMed offers a complete line of surgical table accessories for your positioning needs. Some of our featured products include our Great White Stirrups, Powered Shoulder Chair, and Schure Spine Frame.

Excellent Customer Service

At SchureMed our mission is to provide excellent customer service and to improve patient outcomes and safety for care providers. We are here to serve your needs with courtesy, respect and consideration. Our customer service representatives are knowledgeable, highly-trained professionals who will answer any questions you have about our products and help you begin using them with ease. Our sales representatives are ready to meet with you and are qualified to provide educational in-service sessions with your surgeons and staff upon request.

Expert Engineering

Our highly-trained engineers work closely with doctors, nurses and other members of the medical community to incorporate user feedback into our products. The clinical feedback we receive allows us to produce high quality positioning devices that fit the needs of our customers.

High Quality Products at a Reasonable Price

Our in-house design and manufacturing team allow us to produce superior products at a more reasonable price than our competitors. Please visit our website at www.schuremed.com.

600 lb. (272 kg)
Patient Wt. Capacity

Great White Platinum Stirrups

Great White Platinum Stirrups

Simple squeeze of the Trigger Grip Handle for lithotomy and abduction/adduction.

- 600 lb (272 kg) surgical patient weight capacity
- Boot free-floats throughout each range reducing the risk of superficial nerve injury
- Raise, lower, abduct, adduct quickly and easily with the Trigger Grip handle
- Lithotomy and length indicators help to position and reposition the legs
- Deluxe boot stirrup liners wrap around the foot, ankle and calf providing safe, comfortable and secure patient positioning

Increase your surgeons' operating room performance with the Great White Platinum Stirrups which permits simple adjustment of lithotomy and abduction intraoperatively. A simple squeeze of the Trigger Grip trigger provides complete control of lithotomy and abduction/adduction without compromising the sterile field. Simply release the trigger on the handle to securely lock the stirrup in all directions. Quick-connect, blade-mounting style with extended lateral boot system, the Great White Platinum Boot Stirrups' range of motion is -35° low lithotomy to 84° high lithotomy. Adduction -9° and abduction 25°, with the control to lock the stirrup anywhere in between. The Great White ships fully assembled. Boot liners are included. Two required SpringLoc Clamps sold separately.

#800-0007 Great White Platinum Stirrups

Required Accessory: Purchase Two
#800-0127 SpringLoc Clamp

Optional Accessories
#800-0075 Dolly, Great White Stirrup
#800-0284 Stirrup Wall Rack

Organize your accessories with the Stirrup Dolly (left) and Stirrup Wall Rack (right).

Optional Accessories

Attaches to any general surgical table to contain fluids for hysteroscopy or cystoscopy procedures.

#800-0096 Uro-Trapper System

Allows visibility of patient's leg during intra-operatively adjustments. 10/cs.

#800-0160 Disposable Clear View Leg Drapes, Sterile

Prevent patients from sliding during steep reverse Trendelenburg.

#800-0055 Nissen Straps

Pediatric E-Z Lift Stirrups

- Floating boot automatically adjusts when repositioning the pediatric boot stirrup
- Range: Abduction +25°, Adduction -9°
- Lithotomy range of +84° to -35°
- Easy-clean Boot Liner Pad safely wraps patient's foot, ankle and leg
- Visual indicators ensure precise patient positioning

The Pediatric E-Z Lift Stirrups are as easy-to-use as its forerunner; providing a comfortable, stable boot with an easy-clean boot liner that safely and securely wraps the foot, ankle and leg. Stirrups with the E-Z Lift feature easily control the patient's leg when moving it into the operative position, and have a Trigger Grip Handle that permit simple adjustment of lithotomy and adduction/abduction intraoperatively while maintaining a sterile field. Boot adjust with a single clamp which simplifies patient positioning. Boot liners included.

Pediatric Lithotomy Stirrups

- Pediatric boot stirrup design encapsulates patient's lower leg
- Floating boot automatically adjusts when repositioning the pediatric boot stirrup
- Replaceable boot liner pad safely wraps patient's foot, ankle and calf
- Single boot clamp makes positioning the patient easy

The Pediatric Lithotomy Stirrups are a comfortable boot stirrup with an easy-clean boot liner that is specifically designed with the pediatric patient in mind. Safely and securely wrapping the foot, ankle and leg, the boot adjusts with a single clamp that simplifies patient positioning. Pediatric stirrups attach to side rail of any OR table using the Schure Socket XL (sold separately). Boot liners are included.

Great White Maxima Stirrups

Fold-over design

Flexible boot

GYNECOLOGY/LAPAROSCOPY/UROLOGY 

Great White Maxima Stirrups

- 800 lb (363 kg) surgical patient weight capacity
- Boot free-floats throughout each range reducing the risk of superficial nerve injury
- Raise, lower, abduct, adduct quickly and easily with the Trigger Grip Handle
- Lithotomy and length indicators help to position and reposition the legs
- Extended lateral boot design helps reduce the risk of peroneal nerve injury

Increase your surgeons' operating room performance with the Great White Maxima Stirrups which permit simple adjustment of lithotomy and abduction intraoperatively. A simple squeeze of the Trigger Grip Handle provides complete control of lithomy and abduction/adduction without compromising the sterile field. Quick connect blade-mounting style with extended lateral boot system. Deluxe boot stirrup liners wrap around the foot, ankle and calf provid-

ing safe, comfortable and secure patient positioning. Great White Maxima Stirrups range of motion is -35° low lithotomy to 84° high lithotomy. Adduction -9° and abduction 25°, with the control to lock the stirrup anywhere in between. The Great White ships fully assembled. Boot liners are included. Two required SpringLoc Clamps sold separately.

#800-0245 Great White Maxima Stirrups

#800-0127 SpringLoc Clamp

Optional Accessory
#800-0075 Dolly, Great White Stirrup

Uro-Trapper System

- Flexible drape support provides unobstructed surgeon access to surgical site and springs back to original orientation to allow for optimal fluid drainage
- Mounts effortlessly to any surgical table with integral clamps

A flexible system that attaches to any general surgical table to contain fluids for hysteroscopy or cystoscopy procedures.

#800-0096 Uro-Trapper System

Lithotomy Stirrups

- Use for long or short procedures
- Soft boot liners encapsulate feet
- 350 lb (158 kg) patient weight capacity
- Features extended lateral boot support to prevent superficial nerve damage and unwanted leg rotation
- Schure Socket XL sold separately

#800-0049 Lithotomy Stirrups

#800-0134 Schure Socket XL

Uro-Trapper Drain Bags

- Flexible hose is compatible with all suction systems for accurate fluid measurement
- Durable, drain bags are not made with natural rubber latex

Open mesh filter allows for rapid drainage of fluids. Tube is 64"L x 7/8"D (163cm x 2cm) and 20" (51cm) compressed.

Disposable Uro-Trapper Drain Bags

#800-0098 Sterile, 10/cs

#800-0095 Non-Sterile, 10/cs

Knee Crutches

- Simple to set up and position the patient
- Knee Crutches adjust vertically from 12"-19" (31cm-48cm) and rotate 360° to provide precise positioning with a simple ergonomic locking handle
- Constructed of the highest quality stainless steel
- Extremely soft and comfortable crutch liners prevent superficial nerve damage to the patient. Mount crutches simply with Schure Socket XL (sold separately)

#800-0041 Knee Crutches

#800-0134 Schure Socket XL

Disposable Clear View Leg Drapes

The Disposable Clear View Leg Drape allows visibility of patient's leg during intraoperative adjustments. A blue modesty panel is now incorporated within the drape. Packaged sterile and not made with natural rubber latex. Provides continuous monitoring of patient's legs without breaking sterile field.

#800-0160 Disposable Clear View Leg Drapes, Sterile, 10/cs

Candy Cane Stirrups

- Adjust vertically from 28"-44" (71cm-112cm) with an 8" (20cm) leg clearance
- 18"L x 1 1/2"W (46cm x 4cm) double-looped, cotton ankle strap
- Lock stirrup height by simply twisting the ergonomic handle
- Connect stirrups to OR table side rail with Schure Socket XL (sold separately)

#800-0012 Candy Cane Stirrups

#800-0134 Schure Socket XL

#790-0006 Candy Cane Strap Replacement

#508-0453 Gel Candy Cane Pole Pad, 25" L x 2" I.D (64 cm x 5cm)

Schure Loc™ XPS

Easy as 1, 2, 3

- Squeeze and hold lever to release all device joints
- Position limb in exact position
- Release lever to securely lock into position

The Schure Loc™ XPS combines strength and flexibility to provide optimal intraoperative positioning for all open and arthroscopic limb procedures.

State-of-the-art patient positioning device improves OR staff performance

Schure Loc™ XPS

- Securely and safely holds patient arm in any desired position during arthroscopic surgery
- Compact and lightweight
- No foot pedals, hoses, hydraulics or power cords
- Ships assembled and ready for immediate use
- Single lever releases all joints for positioning and relocks when released
- Decreases surgeon fatigue and improves intraoperative control of surgical limb
- Schure Loc™ XPS reduces staffing needs providing a more cost-effective procedure
- Schure Loc™ XPS Shoulder Kit conveniently includes a sterile drape and foam hand/forearm holder, and self-adherent wrap

Schure Loc™ XPS currently outperforms similar equipment for shoulder surgery in both the beach chair and lateral position. The Schure Loc™ XPS is the perfect companion piece for any beach chair positioner—easily attaching to any OR table rail while freeing your surgical assistant to do much more than steady the patient's limb. Get the most from your team by adding this high-quality, easy-to-use device to your shoulder surgery equipment.

#800-0280 Schure Loc™ XPS

Optional Accessory

#800-0281 Disposable Schure Loc™ XPS Sterile Kit, 10/cs

Includes Sterile Forearm Wrap, Sterile Self-Adherent Coban™ and Sterile Drape.

Provides excellent positioning and surgical access for beach chair, lateral shoulder and supine elbow procedures.

Completely eliminates manual positioning with push-button ease

Powered Beach Chair

NEW! Double Ball Joint Head System allows complete control of the patient's head with one knob. Multiple articulating joints allow the head positioner to safely and efficiently control the most challenging patient anatomies, even super kyphosis patients.

Lateral counter-traction brace adjusts to secure patient positioning.

Head system slides vertically and then locks tight.

Powered Beach Chair

- 500 lb (227 kg) patient weight capacity
- Motion-control technology eliminates manual patient positioning
- Lateral Brace attaches to chair and not table side rail
- Pull-away panels providing excellent surgical exposure
- Double-ball joint head rest tilts 30° in every direction
- Five-piece Deluxe pad set included

The SchureMed Powered Beach Chair is the only chair on the market with a self-contained motor that does not have to rely on the surgical table for power. The double-ball joint head system safely secures patient's head; with even your kyphosis patients. Chair adjusts from 0-90° in 8 seconds in a slow controlled movement. 2" (5cm) Deluxe pad set provides patient comfort. Motion-control technology eliminates manual patient positioning with a simple push button hand control and supports patients up to 500 lbs (227 kgs). Attaches to ANY operating room table with our integrated adjustable mounting clamps. Lateral Brace included.

E-Z Lift Beach Chair

NEW! Double Ball Joint Head System allow complete control of the patient's head with one knob. Using multiple articulating joints allow the head positioner to safely and effectively control the most challenging patient anatomies, even super kyphosis patients.

E-Z Lift Beach Chair

- Reduces effort when lifting patients compared to manual systems
- Double-ball joint head system safely secures patient's head

The E-Z Lift Beach Chair provides a lightweight and cost-effective option to our fully powered shoulder chair. This system employs a powerful piston to lift the patient. Adjusts to fit any OR table with our integrated adjustable mounting clamps. 500 lb (227 kg) patient weight capacity. Articulation range is 0°–90°. Lateral Brace included.

Shoulder Assistant

- Save money not having to buy expensive drapes
- Surgeon foot control provides quick and precise intraoperative positioning
- Easy-to-assemble
- Shoulder Assistant Dolly sold separately
- Unlimited surgical site access and positioning

The SchureMed Shoulder Assistant combines strength and adaptability to provide optimal intraoperative positioning for shoulder surgery in the beach chair position. Staff efficiency is improved as the assistants are freed from holding the limb during surgery. Designed to maintain a low profile while delivering exceptional control and positioning capabilities. Mounts onto the side of any standard operating table and provides a non-sterile base for which sterile components are inserted. The upper extremity positioner and control tube are steam auto clavable to provide the sterile environment needed for upper extremity surgery.

- Three swivel braces have Deluxe foam pads and rotate over the OR to conform to any size patient, they offer complete stability and ease of use
- 5/8" (2cm) stainless steel mounting post
- Schure Socket XL separately

- #800-0043 Lateral Positioners
- #800-0134 Schure Socket XL

Anesthesia Screen

- Adjusts from 15"-33" (38cm x 84cm) in height
- Horizontal adjustment feature facilitates viewing of patient
- Locks with a .25" (.6cm) twist of the handle
- Stainless steel construction
- Schure Socket XL sold separately

- #800-0016 Anesthesia Screen
- #800-0134 Schure Socket XL

Lateral Braces

- Secure and comfortable positioning for total hip replacement, and any other procedure requiring total lateral stability
- Three multi-axis braces easily accommodate any size patient for perfect lateral positioning
- Pressure relief foam with Deluxe cover provide extreme protection for the patient
- Schure Socket XL sold separately

- #800-0042 Lateral Braces
- #800-0134 Schure Socket XL

Leg Prepper

- Padded horseshoe cradle holds patient's leg comfortably during the prepping procedure
- Stainless steel 30"H x 5/8"D (76cm x 2cm) mounting post rotates, rises, and lowers easily to various prepping positions
- Schure Socket XL sold separately

- #800-0013 Leg Prepper
- #508-0107 Replacement Pad
- #800-0134 Schure Socket XL

Bi-Lateral Leg Prepper

- 500 lb (227 kg) patient weight capacity
- Pads remove for easy cleaning

The Bi-Lateral Leg Prepper safely and effectively holds both legs for bi-lateral preps. The unique rotating/pivoting design of the holders allow for infinite positioning off the extremity. Includes 2" (5cm) Deluxe Pads. Schure Socket XL sold separately.

#800-0236 Bi-Lateral Leg Prepper
#800-0134 Schure Socket XL

Well Leg Holder

- Helps prevent nerve damage
- Works on both left and right leg

The foam Well-Leg Holder easily supports with comfort the non-affected, well-leg during arthroscopic knee procedures, fracture repairs and cast procedures.

#508-0352 Well Leg Holder

Extremity Positioner

- Great for positioning the lower extremity for foot or ankle procedures
- Sealed seams for easy clean-up
- Dimensions: 16"L x 12"W x 7"H (41cm x 31cm x 18cm)

This pad is ideal and used regularly for prepping of the arm or leg surgical site.

#508-0353 Extremity Positioner

Universal Prepper

- Supports limbs of all sizes
- Pad removes for easy cleaning

The Universal Prepper safely and effectively holds upper or lower extremities. The unique pivoting design allows for infinite positioning of the extremity. Comes complete with 2" (5cm) thick Deluxe pad. Schure Socket XL sold separately.

#800-0161 Universal Prepper
#800-0134 Schure Socket XL

Saphenous Vein Harvest Pad

- Holds legs externally rotated and slightly flexed for minimally invasive, bridging or open harvesting procedures
- The cover is a multi-directional stretch cover. Inside consists of a top layer of conforming foam with a firm supportive base. Water-resistant cover is not made with natural rubber latex.
- Sealed watertight seams for easy clean-up

The Saphenous Vein Harvest Pad holds patient's legs at the optimal position for assessment and harvesting of the saphenous veins for coronary bypass surgery.

#508-0385 Saphenous Vein Harvest Pad

Elbow Arthroscopy Support

The Elbow Arthroscopy Support comfortably and securely holds the upper extremity for prepping and during surgical procedures. The unique pivoting design provides flexibility for all patient anatomies. Comes complete with Deluxe pad which can be removed for easy cleaning. Schure Socket XL sold separately.

#800-0168 Elbow Arthroscopy Support
#800-0134 Schure Socket XL

Irrigation Towers

- Can hold up to eight (8), five (5) liter bags
- Wide, inverted, 5-legged base resists tipping... no need for "sand-bagging"
- Adjustable from 5'- 8' (1.5m-2.4m) (9' with custom hangers)
- 2- or 4-channel designs
- Push-down squeeze release handles gives a 2-1 mechanical advantage
- No electric or hydraulic parts that require overnight recharging, heavy maintenance, or seals that leak

Great for fluid-intensive irrigation procedures such as arthroscopic, orthopedic, hysteroscopic, endoscopic, TURP, etc.

- #800-0157** Irrigation Tower, 4-Channel
- #800-0158** Irrigation Tower, 2-Channel

Schure Strap VELCRO® Brand Rolls

Schure Strap is the answer to your taping, strapping, tie-down and restraining requirements. It has VELCRO® brand fastener hook and loop back-to-back on 30' (9 meters) rolls and available in 4 widths. No sticky tape residue to damage equipment. Soft edge design to protect patient's skin. Not made with natural rubber latex.

- #800-0147** ¾"W (2cm)
- #800-0148** 1½"W (4cm)
- #800-0149** 3"W (8cm)
- #800-0150** 5"W (13cm)

A-Line Positioner w/Straps

A-Line Positioner w/Straps consist of two exclusive 1"W x 17"L (3cm x 43cm) soft edge straps which reduce the risk against skin ulceration. This anatomically formed base provides the best angle while keeping the skin taut for optimal needle insertion.

- #800-0143** Disposable A-Line Positioner w/Straps, 12/cs

Safety Draw

- Avoid needle sticks
- Hands-free access to medication vials
- Easy viewing of medication labels
- Helps reduce medication errors

Safety-Draw maintains sterility while allowing access to non-sterile vials. This protects both patient and staff by helping to prevent dangerous medication mix-up, as well as needle sticks.

- #800-0059** Safety Draw, IV Pole Mount
- #800-0060** Safety Draw, Mayo Stand Mount

A-Line Positioners

- Stable and accurate positioning
- Enhanced comfort for the patient
- No need to try to find a make-shift positioner
- Has slot to secure to armboard

Disposable support positioner to provide for a fast, consistent and reliable A-Line insertion.

- #800-0144** Disposable A-Line Positioners, 30/cs

Surfaces & Pads

Schuremed has over 20 years experience in the area of pressure management. We have worked with engineered foams and covering materials to provide you with the best combinations for your pressure management requirements in the surgical suite and surrounding areas. We realize that pressure sores are getting a lot of attention by healthcare professionals and Schuremed is your best option. No single foam offers effective pressure management, therefore Schuremed offers a variety of options to meet your specific needs and budget.

Research findings... why is it important to my OR?

PREVALENCE

- One research study concluded that 23% of all nosocomial pressure ulcers are related to the OR experience¹
- In an experiment involving 323 patients between 2000 and 2004, 38% of patients who had the standard pad during surgery developed the sores. But only 7% of patients who had the pressure-relieving pad developed pressure ulcers.³

COST TO TREAT

- The annual cost to treat surgical patients' pressure ulcers — nearly 42% of all hospital-acquired pressure ulcers occur in surgical patients — is between \$750 million and \$1.5 billion.²
- The treatment of a single ulcer has been estimated to cost \$14,000 to \$40,000.⁶

Hospital Acquired Pressure Ulcers

Annual Cost of Hospital—Acquired Ulcers

WHO IS AT RISK? AORN RECOMMENDATION

- The risk of intraoperative ulcerations increases as surgical time increases... Therefore all surgical patients undergoing prolonged procedures should be considered at risk for intraoperative ulceration.⁴

All surgical patients should be considered at-risk for pressure ulcer development; therefore, perioperative departments should develop and implement strategic plans for pressure ulcer prevention.⁵

SCHUREMED PAD TECHNOLOGY

- Available with glued or welded seams for easy cleaning and disinfection
- Available in OR Table Pads, Stretcher Pads and Positioners
- Comes complete with VELCRO® brand fastener Kit when applicable
- Available in 2"-5" (5cm-13cm) thicknesses
- Not made with natural rubber latex

Pressure Maps: Perioperative Surfaces

Subject: 5' 9" Male weighing 200 lbs (91 kgs) in the supine position

Standard

Consists of standard open cell high density polyurethane foam with a Lectrolite™ Cover. Meets OEM Specifications.

Deluxe

Consists of standard open cell high density polyurethane foam with a multi-directional stretch anti-shear Fusion™ Cover. Exceeds OEM specifications.

Deluxe Gel

consists of standard open cell high density polyurethane foam support layer with a top layer of polymer gel all covered with a multidirectional stretch anti-shear Fusion™ Cover.

Softcare

Consists of high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear Fusion™ Cover. Exceeds OEM specifications.

Softcare Plus

Consists of a closed cell rubber anti-bottoming layer then a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear Fusion™ Cover.

Softcare Silver

Consists of a closed cell rubber anti-bottoming layer then a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear Fusion™ Cover with embedded silver to kill odor-causing bacteria.

Softcare Plus Silver

Consists of a closed cell rubber anti-bottoming layer then a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear Fusion™ Cover with embedded silver to kill odor-causing bacteria.

All products are not made with natural rubber latex.

WARRANTY POLICY

Product shall be free from defects in material and workmanship for two (2) years, except for gel pads and positioners for one (1) year. Warranty does not cover misuse, abuse, neglect or lack of routine maintenance.

PRICING

All prices are subject to change. Please contact customer service for updated pricing.

RETURN POLICY (US Only)

All purchased products which are in new, unmarked and saleable condition can be returned within the 30 day return period with a valid RMA (Return Merchandise Authorization) by calling Customer Service at 888-724-8763. The RMA Number must be visible on the outside of the shipping container by the address label. We will issue full credit following inspection of the product. Product not in new condition is subject to a 20% restocking fee or may be returned with no credit. OR table, armboard and stretcher surfaces, foam positioning pads (coated and disposable) and gel pads returned within thirty (30) days of the invoice date are subject to a 20% restocking fee. Disposable and Custom product is not returnable.
