SchureMed—the Better Choice

American Made—For Less

SchureMed is one of the world's leading manufacturers of operating room products specializing in surgical table accessories and positioners. All of our products are proudly made in the United States in our Abington, MA manufacturing plant and shipped worldwide.

Patient Positioning

Patient positioning is our priority and guides the design of all our products. We offer products for Gynecology, Urology, Orthopedic and General Surgery procedures. SchureMed offers a complete line of surgical table accessories for your positioning needs. Some of our featured products include our Great White Stirrups, Powered Shoulder Chair, and Schure Spine Frame.

Excellent Customer Service

At SchureMed our mission is to provide excellent customer service and to improve patient outcomes and safety for care providers. We are here to serve your needs with courtesy, respect and consideration. Our customer service representatives are knowledgeable, highly-trained professionals who will answer any questions you have about our products and help you begin using them with ease. Our sales representatives are ready to meet with you and are qualified to provide educational in-service sessions with your surgeons and staff upon request.

Expert Engineering

Our highly-trained engineers work closely with doctors, nurses and other members of the medical community to incorporate user feedback into our products. The clinical feedback we receive allows us to produce high quality positioning devices that fit the needs of our customers.

High Quality Products at a Reasonable Price

Our in-house design and manufacturing team allow us to produce superior products at a more reasonable price than our competitors. Please visit our website at www.schuremed.com.

Great White Platinum Stirrups

*Exclusive
axial rotation
from the handle
for superior
patient positioning*

*Exclusive
3-axis control*

Patent Pending

Great White  Platinum Stirrups

- Exclusive 3-axis control from the handle
- Surgical weight capacity up to 600 lbs
- Boots free-float throughout lithotomy range
- Clam shell stirrup boot liners contain the foot, ankle and calf for maximum patient security and comfort
- Lithotomy and length indicators assist with accurate positioning of legs

The Great White Platinum Stirrups provide safe and quick positioning assistance for improved surgical site access. This intra-operative, adjustable medical stirrup for gynecological, laparoscopic, and urological applications offers exceptionally precise placement, effectively minimizing the possibility of nerve damage. Exclusive axial rotation, high/low lithotomy and abduction/adduction from the handle improves patient positioning.

Simply squeeze the trigger for smooth and accurate patient adjustment without jeopardizing sterility or patient comfort. Once the trigger is released, the stirrup is firmly locked for optimum safety and surgical performance. The mounting blade design quickly and easily inserts into side-rail clamps. The raised lateral boot fin system protects the patient from superficial nerve damage.

The enhanced range of motion allows for -35° for low lithotomy, to 84° high lithotomy; abduction -9° to abduction 25° and also externally rotates out 20°. The Great White Platinum Stirrups are delivered fully assembled with included boot liners. Two required SpringLoc Clamps sold separately.

Split Leg Stirrups

- Superior split leg stirrups for lower extremity procedures
- Use for Vascular & Orthopedic procedures and mid-line access to abdomen

The Split Leg Positioner provides a safe system for positioning patients for laparoscopic procedures as well as lower extremity orthopedic and vascular procedures. The Split Leg Positioners are radiolucent and lightweight. They are designed with excellent access to the operative site. The mounting blade design quickly and easily inserts into side-rail clamps.

Schure Loc™ XPS

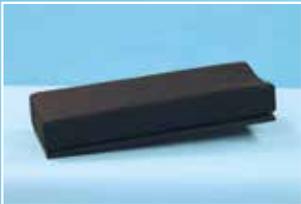

Easy as 1, 2, 3

- Squeeze and hold lever to release all device joints
- Position limb in exact position
- Release lever to securely lock into position

State-of-the-art patient positioning device improves OR staff performance

The Schure Loc™ XPS combines strength and flexibility to provide optimal intraoperative positioning for all open and arthroscopic limb procedures.

Schure Loc™ XPS Optional Accessories

Armboard

Counter Traction Post

TKR Positioner

Elbow/Ankle Positioner

Schure Loc™ XPS

- Securely and safely holds patient arm in any desired position during arthroscopic surgery
- Compact and lightweight
- No foot pedals, hoses, hydraulics or power cords
- Ships assembled and ready for immediate use
- Single lever releases all joints for positioning and relocks when released
- Decreases surgeon fatigue and improves intraoperative control of surgical limb
- Schure Loc™ XPS reduces staffing needs providing a more cost-effective procedure
- Schure Loc™ XPS Shoulder Kit conveniently includes a sterile drape, foam hand/forearm holder and self-adherent wrap
- 500 lb weight capacity

Schure Loc™ XPS currently outperforms similar equipment for shoulder surgery in both the beach chair and lateral position. The Schure Loc™ XPS is the perfect companion piece for any beach chair positioner—easily attaching to any OR table rail while freeing your surgical assistant to do much more than steady the patient's limb. Get the most from your team by adding this high-quality, easy-to-use device to your shoulder surgery equipment.

Provides excellent positioning and surgical access for beach chair, lateral shoulder and supine elbow procedures.

Powered Beach Chair

Completely eliminates manual positioning with push-button ease

NEW! Double Ball Joint Head System allows complete control of the patient's head with one knob. Multiple articulating joints allow the head positioner to safely and efficiently control the most challenging patient anatomies, even super kyphosis patients.

Lateral counter-traction brace adjusts to secure patient positioning.

Head system slides vertically and then locks tight.

Patented

Powered Beach Chair

- 500 lb (227 kg) patient weight capacity
- Motion-control technology eliminates manual patient positioning
- Lateral Brace attaches to chair and not table side rail
- Pull-away panels providing excellent surgical exposure
- Double-ball joint head rest tilts 30° in every direction
- Five-piece Deluxe pad set included

The SchureMed Powered Beach Chair is the only chair on the market with a self-contained motor that does not have to rely on the surgical table for power. The double-ball joint head system safely secures patient's head; with even your kyphosis patients. Chair adjusts from 0-90° in 8 seconds in a slow controlled movement. 2" (5cm) Deluxe pad set provides patient comfort. Motion-control technology eliminates manual patient positioning with a simple push button hand control and supports patients up to 500 lbs (227 kgs). Attaches to ANY operating room table with our integrated adjustable mounting clamps. Lateral Brace included. All powered beach chairs include U.S. cables.

E-Z Lift Beach Chair

NEW! Double Ball Joint Head System allows complete control of the patient's head with one knob. Using multiple articulating joints allow the head positioner to safely and effectively control the most challenging patient anatomies, even super kyphosis patients.

E-Z Lift Beach Chair

- Reduces effort when lifting patients compared to manual systems
- Double-ball joint head system safely secures patient's head

The E-Z Lift Beach Chair provides a lightweight and cost-effective option to our fully powered shoulder chair. This system employs a powerful piston to lift the patient. Adjusts to fit any OR table with our integrated adjustable mounting clamps. 500 lb (227 kg) patient weight capacity. Articulation range is 0°–90°. Lateral Brace included.

#508-1355 Armboard, Incline Pad **\$165 ea**

Armboard Holder

- Stores two standard surgical table armboards
- Use convenient top shelf for clamps or other accessories
- Attaches to wall with four screws (supplied)

#800-0296 Armboard Holder **\$200 ea**

HAND TABLES

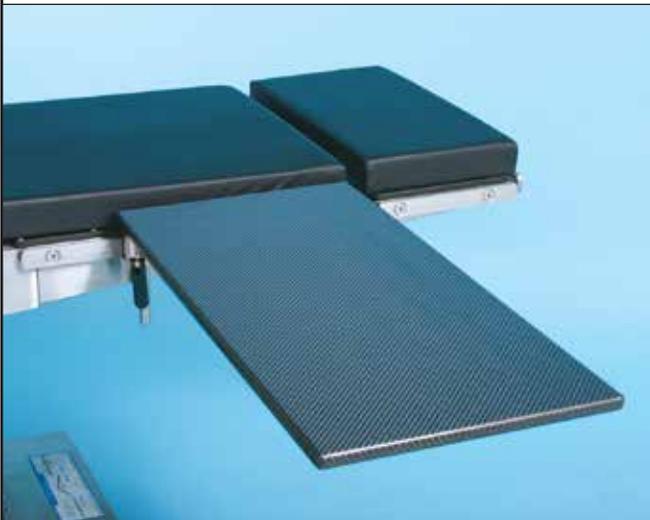

Major Procedure Table

Choose Carbon Fiber or Phenolic

- Easy-to-use durable surgical table
- Carbon fiber technology produces incredibly solid components that are completely invisible to x-rays
- Adjusts up or down to be level with the OR table
- End rail accommodates traction attachment and locks to side rail in seconds
- Adjustable leg height with twist handle locking system

Table measures 15"W x 34"L (38cm x 86cm).
1" Deluxe foam pad & Leg included.

Minor Procedure Table

Choose Carbon Fiber or Phenolic

- Easy-to-use durable surgical table
- Carbon fiber technology produces incredibly solid components that are completely invisible to x-rays
- Adjusts up or down to be level with the OR table
- Perfect for all arm and hand procedures
- No leg attachment

Table measures 15"W x 30"L (38cm x 76cm).
1" Deluxe foam pad included.

Bi-Lateral Leg Prepper

- 500 lb (227 kg) patient weight capacity
- Pads remove for easy cleaning

The Bi-Lateral Leg Prepper safely and effectively holds both legs for bi-lateral preps. The unique rotating/pivoting design of the holders allow for infinite positioning off the extremity. Includes 2" (5cm) Deluxe Pads. Schure Socket XL sold separately.

#800-0236 Bi-Lateral Leg Prepper **\$499 ea**
#800-0134 Schure Socket XL **\$250 ea**

Extremity Positioner

- Great for positioning the lower extremity for foot or ankle procedures
- Sealed seams for easy clean-up
- Dimensions: 16"L x 12"W x 7"H (41cm x 31cm x 18cm)

This pad is ideal and used regularly for prepping of the arm or leg surgical site.

#508-0353 Extremity Positioner **\$174 ea**

Saphenous Vein Harvest Pad

- Holds legs externally rotated and slightly flexed for minimally invasive, bridging or open harvesting procedures
- The cover is a multi-directional stretch cover. Inside consists of a top layer of conforming foam with a firm supportive base. Water-resistant cover is not made with natural rubber latex.
- Sealed watertight seams for easy clean-up
- Dimensions: 32"L x 20.5"W x 6.5"H

The Saphenous Vein Harvest Pad holds patient's legs at the optimal position for assessment and harvesting of the saphenous veins for coronary bypass surgery.

#508-0385 Saphenous Vein Harvest Pad **\$375 ea**

Well Leg Holder

- Helps prevent nerve damage
- Works on both left and right leg

The foam Well-Leg Holder easily supports with comfort the non-affected, well-leg during arthroscopic knee procedures, fracture repairs and cast procedures.

Dimensions: 31"L x 9"W x 2"H.

#508-0352 Well Leg Holder **\$224 ea**

Universal Prepper

- Supports limbs of all sizes
- Pad removes for easy cleaning
- Dimensions: 31"L x 9"W x 2"H

The Universal Prepper safely and effectively holds upper or lower extremities. The unique pivoting design allows for infinite positioning of the extremity. Comes complete with 2" (5cm) thick Deluxe pad. Schure Socket XL sold separately.

#800-0161 Universal Prepper **\$450 ea**
#800-0134 Schure Socket XL **\$250 ea**

Elbow Arthroscopy Support

The Elbow Arthroscopy Support comfortably and securely holds the upper extremity for prepping and during surgical procedures. The unique pivoting design provides flexibility for all patient anatomies. Comes complete with 2" Deluxe pad which can be removed for easy cleaning. Schure Socket XL sold separately.

#800-0168 Elbow Arthroscopy Support **\$325 ea**
#800-0134 Schure Socket XL **\$250 ea**

The Trulife Pressurecare Ranges were developed as a result of their commitment to provide improved levels of pressure care products to both patients and healthcare systems. Vast amounts of in-depth research have gone into the development of each range. The Trulife Pressurecare range, Oasis, Oasis Elite and Azure, offers a simple and cost effective solution with a comprehensive offering to cover all surgical procedures.

Why select the Trulife Range?

- Re-distributes weight effectively
- Reusable & cost saving
- Medical grade silicone & extensive range
- Biocompatible & easy to clean
- Different budgets considered
- Made in Ireland

AZURE

REDEFINING PRESSURECARE

The Azure range is the most advanced and innovative range of products available in the OR today. The Azure range offers the best pressure redistribution. Each product consists of two independent protective silicone layers that work in combination allowing the moulded products to effectively conform to the individual user's shape in a more contoured and less structured manner, resulting in effective protection against nerve damage and skin breakdown. The new approach by Trulife was to create a product that replicates and acts as an additional layer of protective tissue and skin. Azure has set a whole new standard of protection in the OR.

OASIS

THE ORIGINAL SILICONE SOLUTION

The Oasis range is an extensive range of reusable 100% silicone gel pads. The silicone we use is softer than both skin and underlying tissue. This means that pressure is relieved by the slight movement of the silicone gel and resulting dissipation of pressure/force across the product. It is the first range of products launched by Trulife in the OR field and remains a market leader in gel pads and positioners.

OASIS ELITE

LIGHTWEIGHT & PRE CONTOURED

The Oasis Elite range combines silicone gel and light weight foam with a precontoured surface to provide superior pressure relief and patient protection in the OR. Anatomical pre-contouring facilitates greater conformity between gel and body shape; weight is then redistributed over a larger area. Oasis Elite products are more than 50% lighter than comparable gel-only products. They are designed for stability, easier handling and manipulation by medical personnel during preparation and surgery.

Oasis Plus

A REVOLUTION IN PRESSURECARE

The Oasis + products are made from a medical grade siloxane elastomer. Additional durability is ensured because the products have no outer film, making this an entirely unique product range. The shape and design of the product promotes the ultimate in pressure relief. The material has hypoallergenic and anti slip properties helping to provide comfort and support to the patient.

Visit us at schuremed.com to view the entire TruLife product line.

TRULIFE TRENDELENBURG SYSTEMS

Trulife
PRESSURECARE

The **Oasis Elite Trendelenburg System** has been developed to overcome the challenges faced in the Trendelenburg position, primarily patient slippage, nerve injury and the formation of decubitus sores.

Key Features

- Suitable for up to 40° Trendelenburg
- Holds patient securely in lateral tilt
- Dual-layer viscoelastic foam and integrated gel structure
- Reusable, durable & easily cleaned
- Carbon composite shoulder supports for steep Trendelenburg
- Restraint-free
- Rapid setup

Key Benefits:

- Our system features an exceptionally comfortable gel and foam combination which offers restraint-free pressure relief and stabilization of the patient
- A unique dual-layer, integrated gel structure conforms to the shape of the patient, improving immersion and comfort
- A combination of memory foam and latticed gel cells provides maximum pressure relief
- Advanced carbon composite shoulder supports provide additional comfort and stabilisation for steeper procedures

Recommended for robotic-assisted, abdominal and gynaecological surgery.

SYSTEM DETAILS

#804-0114 Elite Trendelenburg System 20° \$1,463 ea
Suitable for surgeries using up to 20° tilt

- Includes: **#804-0115** Trendelenburg Headrest
#804-0116 Elite Trendelenburg Positioner
#804-0117 ET Anti-Slip Mat

#804-0118 Elite Trendelenburg System 40° \$4,251 ea
Suitable for surgeries using up to 40° tilt

- Includes: **#804-0115** Trendelenburg Headrest
#804-0116 Elite Trendelenburg Positioner
#804-0117 ET Anti-Slip Mat
#804-0120 ET Shoulder Support x2
#804-0119 ET Arm Retainer x2
#804-0121 ET L-Bracket x2
#804-0122 ET Clamp x2
(need to specify US, UK, EU)

Surfaces & Pads

SchureMed has over 20 years experience in the area of pressure management. We have worked with engineered foams and covering materials to provide you with the best combinations for your pressure management requirements in the surgical suite and surrounding areas. We realize that pressure sores are getting a lot of attention by healthcare professionals and SchureMed is your best option. No single foam offers effective pressure management, therefore SchureMed offers a variety of options to meet your specific needs and budget.

Research findings... why is it important to my OR?

PREVALENCE

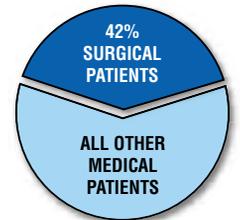

- One research study concluded that 23% of all nosocomial pressure ulcers are related to the OR experience ¹
- In an experiment involving 323 patients between 2000 and 2004, 38% of patients who had the standard pad during surgery developed the sores. But only 7% of patients who had the pressure-relieving pad developed pressure ulcers.³

Hospital Acquired Pressure Ulcers

COST TO TREAT

- The annual cost to treat surgical patients' pressure ulcers — nearly 42% of all hospital-acquired pressure ulcers occur in surgical patients — is between \$750 million and \$1.5 billion.²
- The treatment of a single ulcer has been estimated to cost \$14,000 to \$40,000.⁶

Annual Cost of Hospital—Acquired Ulcers

WHO IS AT RISK? AORN RECOMMENDATION

- The risk of intraoperative ulcerations increases as surgical time increases... Therefore all surgical patients undergoing prolonged procedures should be considered at risk for intraoperative ulceration.⁴

All surgical patients should be considered at-risk for pressure ulcer development; therefore, perioperative departments should develop and implement strategic plans for pressure ulcer prevention.⁵

SCHUREMED PAD TECHNOLOGY

- Available with glued or welded seams for easy cleaning and disinfection
- Available in OR Table Pads, Stretcher Pads and Positioners
- Comes complete with VELCRO® brand fastener Kit when applicable
- Available in 2"-5" (5cm-13cm) thicknesses
- Not made with natural rubber latex

2" Standard Pad vs 2" Standard with Gel Overlay vs 2" Softcare vs 2" Softcare with Gel

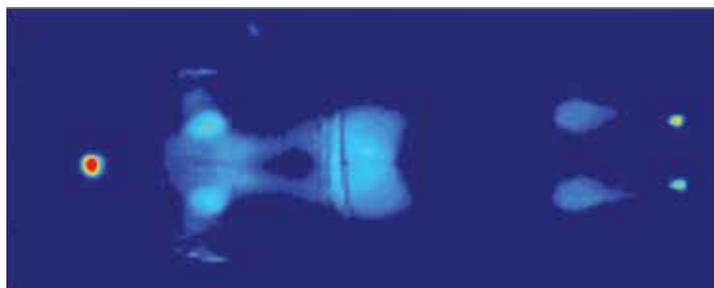

Pressure Maps: Perioperative Surfaces

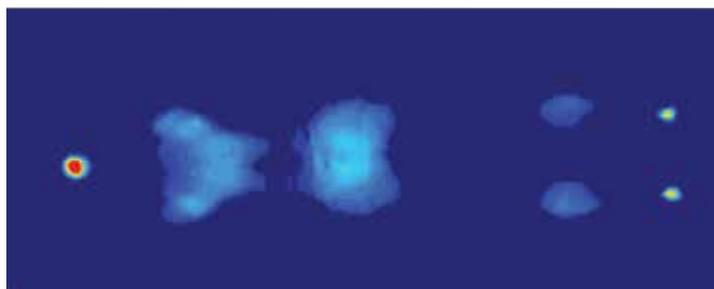

2" (5cm) Softcare Pad

SchureMed's multi-layer pad has eliminated the "hot spots" (red and yellow areas).

2" (5cm) Standard Table Pad

A Standard (single layer) OR Table Pad has "hot spots" at head and heels.

2" (5cm) Standard Table Pad w/Gel

Simply putting a polymer gel pad on top of a Standard Pad does not eliminate the "hot spots" at head and heels.

Subject: 5' 9" Male weighing 200 lbs (91 kgs) in the supine position

Standard

Consists of standard open cell high density polyurethane foam with a 3-Ply PVC Conductive Cover.

Deluxe

Consists of standard open cell high density polyurethane foam with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover.

Deluxe Gel

Consists of standard open cell high density polyurethane foam support layer with a top layer of polymer gel all covered with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover.

Softcare

Consists of high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover.

Softcare Plus

Consists of a closed cell rubber anti-bottoming layer then a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover.

Softcare Silver

Consists of a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover with embedded silver which inhibits growth of odor-causing bacteria.

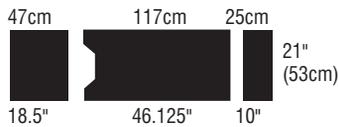

Softcare Plus Silver

Consists of a closed cell rubber anti-bottoming layer then a high density polyurethane foam support layer with a top layer of memory foam covered with a multidirectional stretch anti-shear 4-Way Stretch Conductive Cover with embedded silver which inhibits growth of odor-causing bacteria.

Space Station Back Table

The Specialty Back Table is designed with additional room for large cases such as orthopedics, spinal fusions, neuro and craniotomies. The tuck-away cantilevered shelf holds multiple trays and is angled for clear observation of instruments. The Space Station is easily rolled into position using 4" diameter, heavy-duty ball bearing brake/swivel casters. Strong, heavy-duty, all stainless steel construction.

Dimensions: Main Table: 30"D x 72"W x 34"H.
Top Shelf: 20"D x 72"W.

- #805-0291** Space Station Back Table **\$4,541**
- #805-0292** Disposable Drapes, 12/cs **\$837**

Central Supply Work Table

- Heavy duty, all stainless steel construction
- Height adjustable floor glides
- For use in areas where a table larger than a standard utility or work table is needed

- #805-0300** Central Supply Work Table, 84"W x 36"D x 34"H **\$2,697**

Instrument Table w/Shelf

Designed to improve the efficiency of assembling cases in Sterile Processing.

- Wrap-around work surface for easy access to all areas
- Stainless steel Steril-Gard construction eliminates full sub-tops where undesirable substances can collect
- Soundproofed reinforcing channels for quiet use
- 3" rubber, double ball bearing casters for silent mobility

- # 805-0944** Instrument Table with Shelf, 36"W x 20"D X 34"H **\$651**

Utility Table w/Drawer & Rail

Overall size: 20"W x 16"D x 34"H

Drawer size: 15¼"W x 12½"L x 3"H (I.D)

- Convenient and easy to use
- Stainless steel, Steril-Gard construction eliminates full sub-tops
- Full extending drawer hangers,
- Sound-deadened reinforcing channels for quiet use and added strength
- 3" double ball bearing, rubber casters for silent mobility
- 1½" high 3-sided top rail

#805-0935 Utility Table, 16" x 20" with Shelf, 1 Drawer and Rail **\$707**

Utility Table w/2 Drawers & Rail

Overall size: 20"W x 16"D x 34"H.

Drawer size: 15¼"W x 12½"L x 3"H (I.D)

- Stainless steel, Steril-Gard construction eliminates full sub-tops
- Full extending drawer hangers
- Sound-deadened reinforcing channels for quiet use and added strength
- 3" double ball bearing, rubber casters for silent mobility
- 1½" high 3-sided top rail

#805-0931 Utility Table, 16" x 20" with 2 Drawers and Rail **\$1123**

Utility Table w/Shelf & Rail

Overall size: 20"W x 16"D x 34"H. No lower shelf or cross-brace. For use as a small desk.

- Convenient and easy to use
- Stainless steel, Steril-Gard construction eliminates full sub-tops
- Improves the control of undesirable substances
- Full extending drawer hangers
- 3" double ball bearing, rubber casters for silent mobility
- 1½" high 3-sided top rail

#805-0937 Utility Table, 16" x 20" with Shelf and Rail **\$522**

iStand Infusion Pump Stand

Designed specifically for ambulatory infusion therapy applications. Accommodates up to six infusion pumps.

- *Bag Drop Prevention Device allows for controlled descent of pole*
- *Stainless steel pole and hooks*
- *Adjustable height from 69" to 124" highest in the industry!*
- *Heavy duty 3" sealed casters*
- *Extremely durable powder coat finish base*
- *27 lbs. low-profile steel base*

#805-0441 iStand Infusion Pump Stand

\$582

I.V. Stand

- *Heavy, tip-resistant, all welded five leg base design*
- *2" swivel casters for easy mobility*
- *Tube: O.D. 1" & I.D. 3/4"*
- *21" base (footprint) on all IV stands*
- *68" to 116" height adjustment*
- *Fully-welded stainless steel construction*
- *Hand operated, friction lock height adjustment*
- *70 lbs. overall weight capacity, 10 lbs. per hook (recommended 30 lbs. max. evenly distributed on top hooks for stability)*

#805-0492 I.V. Stand, Stainless Steel

\$496

Patient Handle

Adjustable handle provides easy mobility. For Pedigo IV Stands and #805-0441 Infusion Pump Stand. Includes mounting clamp.

#805-0584 Patient Handle, Black

\$158

Mayo Stand

- All welded stainless steel construction
- 2" double ball bearing casters
- Choose from foot or hand operated adjustment
- Choice of stainless steel, chrome plated or our new, durable near-chrome powder-coated finish models
- Removable tray, stainless steel - 20" x 25"
- Convenient foot pedal operated lock adjusts 36" -62"
- Base designed to move under low clearance equipment with maximum stability
- 50 lbs. weight capacity (evenly distributed)

#805-0417 Mayo Stand

\$1,020

Surgeon's Stool

Hydraulic Surgeon Chairs are ideal for surgery, anesthesiology, ENT and reconstructive procedures. STERIL-GARD is the concept and process of manufacturing products to minimize or eliminate any areas where dirt, fluid and bacterial debris can become entrapped.

- Foot-operated hydraulic height adjustment
- Single pedal height adjustment from 22³/₄" to 30¹/₄"
- Cushioned 16"D seat w/backrest & 21"D base
- Powder-coated 5 caster base w/high grade 3" casters
- Three locking casters

805-0752 Surgeon's Stool, Black

\$2,416

Ergo Anesthesia Chair

Pedigo proudly introduces our NEW ergonomically designed anesthesia chair. This chair features pneumatic height adjustment, dual wheel casters, 5-star base, integrated lumbar support and independent backrest/seat pan height tilt controls.

- 25" footprint
- Tall Height: Adjustable from 24.5" to 34.5"H
- Adjustable Arm Rests & adjustable height foot ring (9" low - 18" high)
- PedigoRoyal upholstery is Latex-free, PVC-free, California TB-117 and TB-133 approved

#805-1146 Ergo Anesthesia Chair, Black

\$1,274

ALL PRODUCTS ARE NOT MADE WITH NATURAL RUBBER LATEX.

PRICING

All prices are subject to change without notice.
Please contact customer service for updated pricing at: 888-724-8763.

LIMITED WARRANTY POLICY

The Limited Warranty covers any defects in material or workmanship of products under normal use and maintenance for 2 years. Limited Warranty on gel pads, pads and positioners is 1 year. Warranty does not cover misuse, abuse, neglect or lack of maintenance.

RETURN POLICY (US Only)

Purchased products in new, unmarked and in saleable condition can be returned within 30 days of the shipping/invoice date with a valid Return Merchandise Authorization (RMA) number. RMA's can be obtained by contacting Customer Service at: 888-724-8763. The RMA # must be visible on the outside of the packaging. A credit will be issued following inspection of the product(s). Products returned not in new condition are subject to a 20% restocking fee or may not be eligible for a credit. OR table pads, armboard pads, stretcher pads, foam positioning pads, gel pads, coated pads, wdisposables and custom products are not eligible for return, refund or exchange.
